K VINTNERS

2025 K VINTNERS ART DEN HOED VIOGNIER

VINTAGE NOTES

2025's weather was unremarkable, which is a good thing for grape growing! Winter was wet and mild, spring and summer were warm but not hot. September was one of the warmest in history, which led to rapid and consistent sugar development. The fruit got a perfect amount of hang time to develop beautiful flavors and impressively long and smooth tannins. Our Walla Walla vineyards did exceptionally well, and the caliber of these wines is very exciting. After a vintage off (the 2024 crop was decimated by freeze), the vines possessed extra vitality and the fruit quality was amazing. The wines are bold, balanced, impressive and possess great longevity.

SCORES

94 Points, *Jeb Dunnuck* (v2024)

"The 2024 Viognier Art Den Hoed is a great representation of the variety in the state in the right hands. It's creamy, luscious, and yet also completely fresh and full of verve. Light-bodied, it shows snappy layers of apple, pear, and honeycomb, with 6-8 years of aging potential to boot, if not more."

VINEYARD

Art Den Hoed Vineyard (100%)

Made entirely from Art Den Hoed's vineyard in lower Yakima Valley, this site is unique because it sits at 1300 ft. in elevation, making it one of the cooler vineyards in the area with excellent air drainage.

WINEMAKING
